

PAPERS FROM THE FAMILY FILES WITH ROWLAND AND THOMAS CONNECTIONS
AND DESCENDANTS OF JANE THOMAS ROWLAND AND ARTHUR RAY ROWLAND

This collection of papers has been produced with the help of the computer software, *Family Tree Maker* by Broderbund. Some of the data has been collected from the World Family Tree, CD ROM Discs volumes 1-9.

Family data has from come several family Bibles and family records and clippings found in these Bibles. For many years I have visited family and church cemeteries to search for the tombstone records. Many county histories, published family histories, state and county records, original and on microfilm, and numerous vertical files at libraries have provided information and clues to other sources. Also, information has come from personal knowledge, and from oral and written family communication, especially from grandparents, born soon after the Civil War, who remember their parents and grandparents.

Libraries which have been visited for this study include several in Augusta Georgia: Reese Library, Augusta State University, Augusta Genealogical Society, Augusta- Richmond County Public Library and the Family History Center and its *Ancestral Files*. Other libraries visited in Georgia include the Georgia Department of Archives and History, Atlanta and the Washington Library of Middle Georgia Regional Library, Macon. I visited the South Carolina Historical Society, Charleston and the South Carolina State Archives, Columbia. In North Carolina I visited the North Carolina State Archives, Raleigh and the Charlotte-Mecklenburg County Public Library, Charlotte. The Virginia Library, Richmond, in its new building, provided new materials. The Library of Congress and the National Society of Daughters of the American Revolution Library in Washington, D. C. also were used.
