Humane Society's New Animal Shelter On Old Frankfort Pike Scheduled for Formal Dedication Wednesday, April 10

HUMANE SOCIETY'S NEW SHELTER

Dedication of the new animal shelter building built by the Lexington Humane Society on its property on the Old Frankfort pike is being planned by the directors of the organization for Wednesday, April 10, during the week which will be celebrated throughout the nation as "National Kindness Week."

The new shelter on the farm is constructed of brick and tile throughout, with concrete floors in the bathing building. The front part of it consists of two rooms, an office and a workroom, both of which are provided with ample closet space, and three washrooms. Lead- ing back from these is a central corridor, on the left side of which are five pens, and on the right side of which are three pens and a large wire-enclosed loading pen. Each of these eight pens has an outside run, also wire-enclosed.

The rear part of the building is the observation ward, consisting of six pens, three on each side. These pens have no outside runs, and the partitions between them are solid tile walls. Dogs which are under observation for signs of rabies may here be isolated for the required length of time with no danger of their infecting any persons or other dogs.

The farm contained a small residence at the time of purchase, and this has been remodeled for the use of the humane officer, A. J. Hayden. A three-car garage was constructed following the purchase, and it contains three stalls, also, for

care of stay stock. During the time of construction of the shelter building, temporary quarters for dogs have been provided in these stalls. Cats have separate quarters in a cat house, which has a wire-enclosed run.

At the dedicatory exercises the building committee, which is composed of the officers of the society, will formally present the building to the membership of the society.

Officers of the society are W. E. Darragh, president; Miss Daisie Proctor, vice president; Mrs. John F. Rogers, secretary, and Mrs. W. A. Hiffer, Jr., treasurer. Mrs. Hiffer acted as chairman of the building committee.

Other directors of the organization besides the officers are Miss Mary Owensby, Dr. L. K. Rolster, L. M. Ross, Miss Mary Sage Curry, J. W. Lancaster, Jr., Mrs. J. K. Shropshire and Mrs. R. S. Strader.

The Junior girls to a handball game which will be played at some date in the near future.

Bryan Station is happy to welcome two new members who have recently entered. Herbert Moore entered the senior class from Henry Clay and Joe Veach is a new member of the Junior class.

Miss Ethel Mae Hoover, practice teacher under Mrs. DeWitt, led the group singing in chapel on Friday. The spirit of St. Patrick's day celebration was evident in the special numbers offered by various members of the glee club. Dr. Crawford gave a short talk on scholarship.

The first year home economics class of Bryan Station has selected and arranged furnishings for a high school girl's bedroom, which is now on display at Baugh and Garner's furniture store. This project sums up a course in related art which the girls have just completed. They have specific reasons for each of their selections. The room is not too wide a typical girl's room ordinarily looks but it is they way one should appear.

Each member of the class has worked on this project. The class was divided into committees, each committee having specific duties to perform. In this way, each member was allowed to go to the store to work.

This work was under the supervision of Miss Mary Lois Williams, the domestic science instructor.

VANDENBOSCH HEARD BY CLUB

War-Like Situation in Europe is Discussed by U. K. Professor at Business Women's Meeting

WEEK'S OBSERVANCE ENDS

The present war-like situation in Europe was discussed by Dr. Amy Vandebosch, of the University of Kentucky, in an address before members of the Lexington Business and Professional Women's Club, Inc., at a legislative luncheon given by them at the Kentuckian hotel as the final event of their celebration of National Business Women's Week.

"The situation in Europe is at the moment very tense, an 'incident' may easily provoke war," Dr. Vandebosch said. "For some time past the major powers have greatly increased their armaments, causing increased distrust of each other. Because of the tense situation in Europe and also in the Far East, the United States is faced with a grave problem with respect to its naval and military policy. The government is asked for increased appropriations for the army and navy.

"Should war break out in Europe, the United States might easily drift, or stumble into it, as it did in the World War. American people ought carefully to give consideration to the policies which they are going to adopt, and maintain an army and navy in agreement with those policies. If it is the purpose of the government to protect American lives and property everywhere, and insist the ancient right of a neutral to trade with either or both belligerents, we shall need a huge navy and in the end we may be drawn into the war as we were in the World War.

"If it is our policy to protect our shores against invasion, the defense problem becomes an entirely different one, requiring an army and a navy of quite a different character. In any case, the American policy ought to be carefully weighed, and a consistent policy followed.

"A European war might bring on an immediate, but brief, period of prosperity followed by an ever-worsening depression because of the present exhaustion of the world. The end would probably be the spread of Fascism and Communism throughout Asia and Europe."

Miss Mary Maguire was in charge of arrangements for the luncheon. Those present besides the speaker and Miss Maguire were Mrs. Quencie Greathouse, club president; Miss Jane Smith, Mrs. W. V. Stanley Milligan, Mrs. Betty Boone, Lindsay, Miss Emma Merrell, Mrs. Mrs. Elwood T. Good, Mrs. Bryant White, Mrs. Jessie K. Lake, Miss Rhoda Carroll, Miss Hattie J. House, Miss Mayme Caden, Miss Laura Deophouse, Miss Marie Seheldell and Miss Maple Moore.
