ROGERS GIVES ECONOMY PLAN

At a meeting of the Fayette County Taxpayers League at the courthouse yesterday afternoon, Fon Rogers addressed the group on county finances. He displayed a chart, he claimed, that showed that 25 per cent, or $100,000, could be saved the Fayette county taxpayers.

Mr. Rogers attacked the fiscal court, county judge and magistrates, Democratic county leaders and newspapers. The speaker urged that "a man should be paid according to his worth; not let him get all that he can."

A resolution was read by Paul Shipp and adopted, urging that several mass meetings be held throughout the county and that Mr. Rogers show his chart and speak at these meetings. A committee consisting of Paul Shipp, Sheriff Charles Land and A. F. Shouse was appointed to investigate several other matters which were considered "unnecessary expenditures."

The organization claims a thousand members, and plans are being made to increase this number. About a hundred persons attended the meeting.

A. F. Shouse called a meeting of the Farmers Union prior to the Taxpayers meeting and urged that more farmers make use of their old sheep by using them for meat instead of selling them at low prices. He explained the proper way to kill and prepare sheep for home use.

Since meat contains food elements essential for building new tissues, its importance in the diet of a growing child can hardly be overestimated. Protein, iron and phosphorus are supplied by the meat portion of his daily fare, which, of course, should include vegetables, cereals, fruits and milk. Liver, kidney and sweetbreads are all excellent sources of vitamins. Liver is especially valuable in the diet of the child. It may be liver from veal, beef, pork or lamb.

Baby gets his meat in the form of broth or scraped beef. As soon as his tetth have made their appearance, he may have his meat several times a week—and does he relish it? It seldom requires much coaxing to get him to eat this food, which is so good to his taste and good for him at the same time.

By the time he has reached school age and from the no through the difficult adolescent years, a child needs meat once or twice daily; so foremost doctors agree.

Simple Preparation

Meat for young children should be prepared simply. Stews are especially good since they also contain vegetables. And the vegetaste all the better because of the savory meat flavor. Broiled steaks, chops and roasts are also good for even the littlest member of the family, if he has learned to chew them properly.

There are delicious ways of preparing meats with the youngsters especially in mind. Following is a recipe which combines valuable elements of nutrition and is at the same time good enough to bring demand for second helpings.

Lay strips of bacon across the top, cover and bake in a moderate oven (350 degrees F.) until vegetables are tender.

Casserole of Liver

CORPS INVITED TO CONVENTION

Man o' War Post Drummers and Buglers to Drill at National Legion Meeting in Chicago

OTHER BIDS ARE RECEIVED

The drum and bugle corps of Man o' War Post No. 8, the American Legion, has been invited to appear at Washington Park race track, Chicago, during the fifteenth annual national convention of the American Legion, which will be held in Chicago, October 2 to 8. Post Commander James Templin, of the local Legion post, states that this invitation will undoubtedly be accepted, and that the appearance of the local corps during the race meeting in Chicago will be in the jockey uniforms which have given the local organization a national reputation.

The local American Legion drum corps has also accepted an invitation to participate in a drum and bugle corps contest, which is to be held at Richmond, May 28. Outstanding corps from New Albany, Indiana, and Louisville and Newport, Ky., will also participate in this contest.

In the last two years the local organization made rapid strides in its playing and drilling ability, but during the various contests in which it has competed, it has been penalized for not having more military appearing uniform. For that reason, the local American Legion post is endeavoring to obtain sufficient funds with which to purchase a military type of competition uniforms for its drum and bugle corps. The uniform decided upon is of a West Point style, but entirely different in color combination from any uniform yet obtained by other drum and bugle corps.

The next rehearsal of the drum and bugle corps will be held at Jackson hall Monday night. On this occasion all of the former members of the corps since its organization three years ago are invited to attend and witness the many changes that have been made.

INCREASE IN SALT RATES IS OPPOSED

A proposal to increase carload freight rates on salt from northern and southern producing points to Lexington is opposed in a brief filed with the interestate commerce commission Saturday by the Lexington Board of Commerce.

According to J. E. Marks, manager of the Board's traffic department, the tentative decision of Examiner E. J. Hoy in the general salt investigation, which contemplates relating the rates on salt to first class rates, would involve substantial increases in the present rates from Louisiana and would discriminate against Lexington in favor of the Ohio river cities on shipments from West Virginia, Ohio and Michigan.

The investigation of the salt rates was initiated by the commission several years ago and evidence in regard to the Lexington rates was given at a hearing in Buffalo in 1930.
